1. In order to extend/retract slider you must:
  - A) make sure you have at least 3 feet clearance
  - B) start engine
  - C) apply parking brake
  - D) check all rear drawers are fully closed
  - E) look for anything else that could be in the way to prevent its movement

2. NEVER run generator when RV is plugged into electric power or try to start it when the engine is running.

Generator will NOT run if fuel level is below 1/4 tank.

3. No Smoking in RV.

Take pictures of RV

REMEMBER no drive thru fast food you are almost 12 feet high. Most bridges are 13 feet 6 inches, but if you get off the beaten path you can encounter lower bridges. Please pay attention to bridge signage.

Supplemental Rental Agreement  
revised 6/5/2023

NOTE: Awning must be retracted in windy conditions, high winds can cause significant awning damage. If you leave RV unattended it is always safer to retract the awning. USE A1 OR PHONE TO EXT/RET

Upon RV return awning will be extended and inspected.

Remember the camper part of the RV is 8 inches wider than the cab part

Never put wipes in toilet Never

If using Toilet put flush dissolver and liquid into each sink and shower drain each time you empty tank

Make sure all exhaust fan vents are lowered BEFORE driving

Make sure RV door is locked before driving

Stabilizers are NOT for leveling RV if you lower them to prevent rocking you MUST retract them before driving

Park on level ground as much as possible, use plastic leveling blocks stored in drivers side front compartment. If on a significant incline refrigerator will stop working.

Discuss engine shut off switch and how it effects opening closing slider

Green light in cabinet over refrigerator on means power antenna is on.

If you are hooked up to park cable turn it off

DVD Blu Ray is HDMI3 on both TVs use remote source to connect

There is an air tag in the RV.

NOTE: If you lock the bottom lock on the RV from the inside then go outside and close the door it will lock behind you. Before you exit you must unlock the bottom lock to prevent being locked out.

Put side mirrors in if parking on street

GFI in bathroom

Emergency exit window don't open unless emergency

Parking on incline refrigerator will not work

Be gentle with keys to storage bins and door locks

NO FESTIVALS!!!!!!

Remember it turns like a BUS!!!

When showering on adjust the hot water on the thermostat to desired temperature. Don't adjust the temperature with the cold water faucet you will get cold water in shower for a short time if you do.
