

TEXAS SABRE TOOTH TRAVELER

Rental Agreement

We are excited to partner with you on your trip plans. This agreement is in addition to the RVshare.com rules, which are meant to give you an amazing opportunity to have a safe and memorable camping experience. The following rules are expected to be followed to give awareness and provide the best experience.

- A pre-inspection walkthrough of the camper will cover features and use, this takes approximately 30-40 minutes and is required prior to pickup.
- All included and/or rented items, equipment, hoses, cords, devices, furniture, appliances need to be clean, and in the same condition they were received at the time of the return of the camper to avoid damage claims.
- Delivery / Drop off roundtrip scheduling will require proof of RV site accommodations before drop off and pickup in most cases. (ask questions before the rental)
- Delivery / Drop off roundtrip accommodations will need to include enough time for delivery and pickup to avoid additional fees and smooth transition. (ask questions before the rental)
- Provided linens need to be free of stains, tears or damage.
- Proper storage of items while towing is needed to prevent damage or spillage.
- Pets are not allowed to prevent allergies to other customers.
- Hoses, cords, fittings, need to be rolled and/or stored in the proper locations.
- Sewer hoses need to be flushed with water to prevent excess odor and build-up
- Check tire pressures often, fill to the psi noted on the tires.
- Only human waste and RV approved toilet paper can be flushed down the commode.
- Trailer 7-pin cable, emergency brake must be used when towing.
- Trailer tire blocks are to be used to when parked.
- Stabilizer jacks require the blocks provided.
- All towing vehicles must provide current insurance, inspection, and registration to be approved.
- A safety check list and inventory check list will require signing at the time of pickup and drop off with owner verification, please allow time for this.
- Black water and Gray water tanks must be flushed and empty upon return to avoid fees.
- Do not drive with full wastewater tanks.
- The waste water pipe must be closed and capped while towing.
- The window shades need to be raised and lowered slowly.
- Turn off all gas appliances when not in use.
- Theft or missing items will result in a damage claim.
- All latches and clasps must be engaged and in the locked position prior to towing.

We hope you enjoy your experience and ask you take special care so others like you can enjoy an amazing camper.
